7. Treasurer/Tax Collector Items:

7.a. CONSIDERATION/ACTION: Item continued from the April 9, 2023 meeting - Requesting permission to transition to an alternative workweek schedule in May of 2024 for the Department of Treasurer/Tax Collector. (Treasurer/Tax Collector)

Treasurer-Tax Collector, Cheryl Knoch, provided a background on the proposed request of an alternate work week for the Treasurer/Tax Collector office.

Supervisor Rhoads requested to have this item referred to a committee for review.

Supervisor Cavasso asked if this would increase the availability of the office to the public or maintain the current availability.

Treasurer-Tax Collector Knock reported it would maintain the current availability for the public.

A discussion was held and several questions were asked of Treasurer-Tax Collector Knoch.

Supervisor Byrne stated she supports this item being referred to a committee to conduct research on the impacts to the public before she could support the item.

Auditor, Stephanie Wellemeyer, provided comments in favor of the alternative schedule and stated there are other offices throughout the county with alternative schedules already in place.

County Administrative Officer, Chester Robertson, provided a statement of support for the flex schedule and for ensuring the public has service from the Treasurer-Tax Collectors office.

Supervisor Cavasso stated the proposal is not in violation with the county policy, it is not precedent-setting, and after hearing the discussion she is not in favor of holding back one department while others have already have enacted an alternative workweek schedule. Supervisor Cavasso stated if there needs to be a committee she feels it could happen after but why would the Board hold one department back while other departments already have the schedule in place.

Supervisor Byrne provided comments on her dislike of the four-day workweek. Supervisor Byrne stated she supports the committee so these details can be investigated to ensure fair treatment across the county.

A further discussion was held on the request.

The Chair of the Board appointed Supervisor Byrne and Supervisor Rhoads as the Alternate Workweek Ad Hoc Committee.

Ordered on a motion by Supervisor Byrne, seconded by Supervisor Coe to continue item 7.a. until the April 23, 2024 meeting with a report from the committee and a final determination on the request.

Motion carried unanimously.

12. Road Department Items:

- 12.a. CONSIDERATION/ACTION: Item continued from the April 9, 2024 meeting - Requesting approval and authorization for the Board of Supervisors to void the existing contract with Mr. Green Thumb, declare a rule of necessity applies, and award a new contract to Mr. Green Thumb, in the amount of \$300,000.00, effective April 9, 2024. (Road/Airport)**

Road Commissioner, Mitch Crosby, reported he originally awarded the contract to Mr. Green Thumb realizing the owner of the company is married to a management-level position within the Modoc County Road Department. Road Commissioner Crosby reported Mr. Green Thumb was the only bidder and felt that if the Road Department had the proper barriers in place they could avoid the conflict of interest. Road Commissioner Crosby reported he recently learned that there is more depth to the conflict of interest law than he had realized. Road Commissioner Crosby reported that after meeting with County Counsel and the CAO they were able to present a solution to the issue in a very

short time frame. Road Commissioner Crosby reported he is requesting the Board of Supervisors to award an identical contract to Mr. Green Thumb with the declaration that a rule of necessity applies in this case.

Supervisor Byrne reported she understands that the Road Commissioner has tried many avenues to make the landscaping contract award work but stated she is not comfortable with approving the contract today because the ethics of this contract concerns her. Supervisor Byrne stated her recommendation would be to not approve the contract but refer the item to County Counsel, the CAO, and the Road Commissioner to come up with an alternative solution which meets the ethics and legal requirements.

County Counsel, Margaret Long, reported the law which governs this issue is 1090 which states you cannot award a contract to anyone who is in management within the county. County Counsel Long reported that 1090 has exceptions and one of those exceptions is the rule of necessity which has been utilized in rural communities because there are no other options. County Counsel Long reported from an ethical perspective she would not have allowed this to be placed on the agenda if she did not believe that the rule of necessity applies and was appropriate. County Counsel Long reported that in this situation with the understanding that the contract went out to bid twice and there were many other internal options explored, this would be the exact situation where the rule of necessity was created for because the project would not get completed without this component of the project. County Counsel Long reported it is the pleasure of the board if they want to move forward with the contract but wanted to make it clear the rule of necessity is a valid and court excepted exception to 1090. County Counsel Long reported the facts of this situation meet the standard to move the contract forward.

Supervisor Byrne stated she is still concerned with the ethics of the contract.

County Counsel Long reported she understands the ethical matter is a determination for Supervisors Byrne. County Counsel Long reported the rule of necessity would be a legal solution to the problem that was presented.

Supervisor Cavasso reported she has a lot of problems with the request before the Board. Supervisor Cavasso reported on her research regarding the law of 1090 and her experience taking a recent ethics course. Supervisor Cavasso reported Government Code 1090 prohibits public officers from participating in the development, negotiation, or execution of a contract in which there is some financial interest or gain. Supervisor Cavasso stated she hears that there is a law that allows the rule of necessity but reported she is having a hard time with the necessity of the contract. Supervisor Cavasso stated she feels she is being asked to make a decision which is based on an action that was prohibited but there is this exception. Supervisor Cavasso stated when we take the ethics training it says it may be legal but it is still may not be the right thing to do. Supervisor Cavasso stated if she was to vote in favor of the contract she would be violating her integrity. Supervisor Cavasso stated she would like to see the item tabled to review other options available to ensure the park is completed by July.

Supervisor Rhoads reported she agrees with Supervisor Cavasso and stated the county has worked very hard to improve the appearance and operation of the County of Modoc. Supervisor Rhoads

reported the work done to improve the county includes the Board of Supervisors, other elected officials, and employees so the county can gain the public's and the State of California's respect once again. Supervisor Rhoads reported she feels she needs to support Supervisor Cavasso as the requested action may be legal but it is not ethical, therefore she cannot support the contract.

Chairman of the Board Starr stated there are a lot of red flags with the contract. Chairman Starr stated he appreciated staff trying to take the time to find another avenue the county could utilize. Chairman Starr asked County Counsel Long if she believed there is another avenue that may suit the concerns of the Supervisors which could be identified quickly without compromising the entire project.

County Counsel Long reported Road Commissioner Crosby should address the question from Chairman Starr. County Counsel Long reported she would review any solutions that the Board of Supervisors would like to review.

Road Commissioner Crosby stated he understood the concerns involved and reported on the process of the advertisement and acceptance of the bids. Road Commissioner Crosby reported on the first request for bid which received no bids from local contractors and the bid that was received was \$2 million over budget. Road Commissioner Crosby reported the current bid for landscaping in comparison to the first bid received was \$200,000 less, which will provide the county with significant savings. Road Commissioner Crosby reported if they were to rebid the landscaping contract the challenges would be the availability of contractors to bid on the project and what the cost difference would be from an out-of-area contractor. Road Commissioner Crosby reported the landscaping is an essential part of delivering the project by July but stated it is up to an interpretation whether it is a necessity to have Fandango Days at the park. Road Commissioner Crosby reported on the option of using county staff but reported on the question of whether the work can be classified as existing rehabilitation if there is an existing water system but there will be additions of new valves and drip line to the system. Road Commissioner Crosby reported he would have to discuss this option with CAO Robertson to understand what applies in this situation. Road Commissioner Crosby reported the second part would be reviewing the skills of the county staff to ensure the specifications of the irrigation system will be accurately installed and fully operational in the future. Road Commissioner Crosby reported these are the avenues that he sees will both face challenges.

A further discussion was held on the need to find a solution to the issue.

A discussion was held on the state requirements that can prevent businesses from submitting bids.

CAO Robertson asked Road Commissioner Crosby what the current status of the contractor was due to the board not taking any action on the item.

Road Commissioner Crosby reported he issued a letter on Thursday, April 9, 2024 to Mr. Green Thumb to cease work on the project.

Chairman of the Board Starr asked if the contractor would be paid for any work that had been completed.

Road Commissioner Crosby reported the contractor has been paid for about \$60,000.00 worth of work to date.

County Counsel Long reported the team would bring the amount of payment back to the Board of Supervisors as a part of their analysis on how to proceed.

Ordered on a motion by Supervisor Cavasso, and seconded by Supervisor Byrne to continue item 12.a. and direct staff to work with the Chair of the Board to review all options regarding the landscaping contract and present those options at the April 15, 2024, Special Board of Supervisors meeting for a determination.

Motion carried unanimously.
